Research

Program requirements:

- 30 CP Master Thesis Module
- 24 CP Background Modules
- 15 CP Research Modules
- 21 CP any further module(s) from Biology curriculum
- 30 CP free choice: any further Biology Module(s) or (subject to approval) Course(s) from other M.Sc. programs, from other universities, or from abroad.

Modules bio900 and bio810 offer several project options

*multiple registration possible

Modules with shared course components, similar content or previous versions (see list) cannot be credited twice.

full-time block courses

weekly courses / irregular meetings
