http://www.uni-oldenburg.de/en/students/application-enrolment/international-students/application-medicine/

2. Personal details
Student identification number (if applicable)

3. Degree programme to which this application refers

3.1 Subject Semester
Medicine (state examination)

Important information concerning application
Enrolment in an advanced semester is possible only under the following conditions:

- you have already completed a semester in the same study programme
- you have already earned ECTS credit points in another degree programme and accreditation of these study periods and credit points is possible via the Academic Examinations Office of the University Oldenburg
- you can be assigned a place on the Medicine programme.

Current:
Winter semester 2018/19 – Application for 3., 5., 7., 9., 11. or 13. semester possible.
An application in the first semester is only possible for the winter semester via Hochschulstart.
Please do not send us application documents for applications in the first semester!

Advice:
Carl von Ossietzky University Oldenburg introduced a model degree programme in Medicine in the winter semester of 2012/13 (for information see: http://www.uni-oldenburg.de/en/medicine/).
Any empty places in advanced semesters are therefore open to applicants who are willing to switch to the model degree programme.
As a rule, switches lead to a prolongation of study duration of at least 1 – 2 semesters, since, among other things, it is not possible to join a subject that has already started.

3.2 Previous degree programmes
Are you or were you already registered at University Oldenburg or at another German higher educational institution or university of applied sciences? □ yes □ no

If so, please list all periods of study:
Name and location of institution  | from - to | degree programme | degree
--- | --- | --- | ---

b) I affirm that all statements in this application are complete and accurate.
c) I have not finally not passed an exam in the degree programme I apply for.
d) I know that false statements can lead to exclusion from the degree programme.

6. Place, date  Signature of applicant

Important for recognition
Examination results in the model degree programme are not automatically acknowledged but are subject to a review and recognition procedure by the appropriate Board of Examiners of the university. This also applies to study periods and study results that have already been recognized by the state examination office for Medicine.

Applicants from another degree programme or who have already studied medicine abroad must submit their application for admission to the Registrar’s Office and apply to the Lower Saxony State Examinations Office for Social Affairs, Youth, and Family, the State Examinations Office for Health Care (Niedersächsisches Landesprüfungsamt für Soziales, Jugend und Familie, Landesprüfungsamt für Heilerufe), Berliner Allee 20, 30175 Hannover, Telephone: +49511/380-2590 (Mr. Geuke, other telephone numbers on home page), https://www.aekn.de
