**Module label**
Lesson planning in economics education

**Module code**
ökb730

**Credit points**
9.0 KP

**Workload**
270 h

**Used in course of study**
- Master of Education (Gymnasium) Politik-Wirtschaft > Ökonomische Bildung

**Contact person**
Module responsibility
- Dirk Loerwald
- Die im Modul Lehrenden

**Entry requirements**
Completed foundation curriculum (Bachelor's)

**Skills to be acquired in this module**
Students
- obtain the knowledge they need to assess models for lesson planning and proposals for the implementation of economics lessons in terms of teaching methodology and teaching practice
- reflect on teaching material and develop teaching aids for economics
- acquire a grasp of theory that will enable them to determine the role of practice and performance assessment in the teaching of economics
- develop proposals for the design of practice and performance assessment in the teaching of economics
- gain an understanding of theory that will enable them to recognise opportunities for acquiring methodological expertise, sound judgment and practical techniques in the teaching of economics
- reflect on opportunities at school for diagnosing and evaluating teaching programmes and for didactic experiments in the teaching of economics.

**Module contents**
Basics of lesson planning in the teaching of economics (3 ECTS):
- Didactic models and basics of learning theory for lesson planning
- Levels of lesson planning in teaching economics
- Focussing the teaching of economics on the development of skills
- Development of media and materials for the teaching of economics

Practice and performance assessments in the teaching of economics (3 ECTS):
- Fundamental understanding of practice, taken from anthropology and the psychology of learning and memory
- Fundamental understanding of practice, taken from the didactics of teaching economics
- Evaluation of performance level and learning outcomes in the teaching of economics
- Opportunities for designing time-based or period-based performance assessment in the teaching of economics

Theory and practice of teaching politics and economics (3 ECTS)
- Teaching politics and economics in secondary (Gymnasium) schools
- Methodological expertise, sound judgment and practical techniques in the teaching of economics
- Opportunities for acquiring methodological expertise, sound judgment and working techniques in the teaching of economics
- Evaluation of teaching programmes in economics

### Module Details

- **Module Code:** ökb740
- **Module Label:** Corporate bylaws and employment relations
- **Credit Points:** 6.0 KP
- **Workload:** 180 h
- **Used in Course of Study:** Master of Education (Gymnasium) Politik-Wirtschaft > Ökonomische Bildung
- **Contact Person:** Rudolf Schröder
- **Authorized Examiners:** Die im Modul Lehrenden

### Entry Requirements
- Completed foundation curriculum (Bachelor's) and successful completion of at least two advanced modules (Bachelor's)

### Skills to be Acquired in this Module
- Students should recognise the significance of the corporate constitution for the commercial activities of companies and for the various parties within the companies.
- Investigate the extent to which the corporate constitution determines how companies can use the freedom of action and decision that the economic system allows.
- Find out who in the company may, or should, decide on what matters, according to which rules.
- Reflect on the fundamental normative problem of the corporate constitution and critically discuss the issue of legitimacy and possibilities for further development.
- Analyse labour relations and the extent to which they are of key importance to economic life and to work in the company.
- Critically discuss the German system of relations between employers and employees and the main components of that system.
- Reflect on current developments and issues, as well as aspects of the existing system that require change or reform.
- Should critically consider the structures of the system and the behaviour of the parties involved.

### Module Contents

1. **The corporate constitution**
   - Fundamental issues of the corporate constitution
   - Capitalist enterprise and managerial enterprise
   - Co-determination at the company level
   - Co-determination at works level
   - Environmental protection and the corporate constitution

2. **Labour relations**
   - System of relations between employers and employees
   - Regulatory levels of labour relations
   - Development perspectives compared internationally

### Reader's Advisory
- **Language of Instruction:** German
- **Duration (Semesters):** 1 Semester
- **Module Frequency:** jährlich
- **Module Capacity:** 30
- **Module Level:** MM (Mastermodul)
- **Module Art:** Wahlpflicht

### Examination
- **Type of Program:** Seminar
- **Time of Examination:** At the beginning of the semester, in the ‘Jour Fixe’ meeting for teaching staff, it is discussed and established what form the module examination should take. Students are notified accordingly at the beginning of the module.
- **Frequency:** SuSe or WiSe
- **Workload Attendance:** 56 h
Module label: Marketing and project management
Module code: ökb750
Credit points: 6.0 KP
Workload: 180 h

Used in course of study:
- Master of Education (Gymnasium) Politik-Wirtschaft > Ökonomische Bildung

Contact person:

Entry requirements

Skills to be acquired in this module:
- Students:
  - use ERP software in commercial processes
  - perform calculations in the context of internal accounting
  - use calculation results for more detailed calculations, such as price calculation and capital expenditure calculation
  - assess the significance of the results for business decisions
  - describe important development forms and methods of controlling
  - analyse the significance of internal or external accounting for controlling.

Module contents:
The module is mainly based on the session ‘Principles of the organization of economic and social processes in businesses’ in basic module ‘ökb021 – Private households and businesses’. In this module, the lectures and exercises about the following topics are interrelated:
- ERP software in commercial processes
- Internal accounting (accrual accounting; cost type, cost centre and cost unit accounting; actual, normal and standard costing; absorption and variable costing)
- Use of internal accounting results in the context of investment and sales decisions
- Controlling: forms of development and controlling tools

Reader's advisory
