mar570 - Profile Module Introduction to DNA-sequencing and sequence analysis

Profile Module Introduction to DNA-sequencing and sequence analysis  

Module code  
mar570  

Credit points  
6.0 KP  

Workload  
180 h  

Used in course of study  
- Master's Programme Microbiology > Mastermodule  

Contact person  

Module responsibility  
- Thorsten Henning Brinkhoff

Authorized examiners  
- Thorsten Henning Brinkhoff
- Liliana Cristina Moraru

Module counseling  
- Liliana Cristina Moraru

Entry requirements  
Lecture during the course

Skills to be acquired in this module  
- sequence DNA by Sanger sequencing
- assemble DNA sequences
- use internet databases for sequence comparison
- use the various facilities of the NCBI database
- analyze bacterial genomes for presence of specific genes
- use ARB, databases and literature data to create phylogenetic trees
- design primers and probes
- present and discuss scientific results
- write a scientific protocol

Module contents  
Introduction into DNA-sequencing and sequence analysis: The course starts with a lecture on the first two days. During the following days the participants will give seminar talks about different scientific studies for which DNA sequencing was highly relevant. DNA sequencing will be taught in the lab of the working group. Sequence analysis, introduction into the use of various internet databases and the phylogeny program ARB will be demonstrated by individual use of laptops of the institute.

Modulelevel  
---

Modulart  
je nach Studiengang Pflicht oder Wahlpflicht

Lern-/Lehrform / Type of program  
Seminar (2 CP, 1 SPPW), practical course (4 CP, 4 SPPW)

Vorkenntnisse / Previous knowledge

Examination  

Time of examination  
Announced during the course.

Type of examination  
One assessment of examination:  
Portfolio (seminar presentation, written protocol)

Protocol (75 %), seminar presentation (25 %).  
Active participation (Active and documented participation in practical courses (labs, exercises, seminars, field trips) and courses. These include e.g. the delivery of exercises, writing a lab report or seminar presentations according to the advice of the course supervisor.)
