**Entry requirements**

**Skills to be acquired in this module**
- Upon completion of the module, students will have a sound understanding of methods used in finance to determine the value of a firm under uncertainty.
- They will have a sound understanding of how investment and financing decisions are related, and how they both affect the value of the firm.
- They will be able to determine intrinsic firm values based on accounting information, and they will be aware of the respective models’ strengths and weaknesses.

**Module contents**
The course covers key concepts of modern corporate finance in theory and practice. In particular, we focus on how investment and financing decisions affect the value of the firm. Among the topics discussed are:
- Fundamental analysis and capital market efficiency.
- Cost of debt and equity capital.
- Business valuation models based on dividends, cash flows, and (abnormal) earnings.
- Capital structure and dividend policy.
- Advanced valuation issues.
