inf482 - Current Topics in 'Parallel Systems' I

Current Topics in 'Parallel Systems' I

inf482

3.0 KP

90 h

Master's Programme Computing Science > Theoretische Informatik

Module responsibility

- Eike Best
- Die im Modul Lehrenden

Authorized examiners

- Eike Best
- Die im Modul Lehrenden

Entry requirements

This module integrates current developments in the field in adequate study courses.

Skills to be acquired in this module

Professional competences

The students:

- define and contrast a computer science part, in which they are specialised, in detail or evaluate computer science in general
- recognise and evaluate applied techniques and methods of their subject and are aware of their limits
- identify, structure and solve problems/tasks, also in new or developing subject areas
- apply state of the art and innovative methods to solve problems, if necessary from other disciplines
- are aware of the current limits and contribute to the development of computer science research and technology
- discuss and evaluate recent computer science developments

Methodological competences

The students:

- examine tasks with technical and research literature, write an academic article and present their solutions academically
- evaluate problems/tasks, including new or developing subject areas of their discipline and apply computer science methods for solutions and research
- schedule time processes and resources

Social competences

The students:

- communicate with users and experts convincingly

Self-competences

The students:

- pursue the overall and special computer science development critically
- develop and reflect self-developed hypotheses to theories independently

Module contents

See assigned course description

Reader's advisory

As announced in course

Language of instruction

German

Duration (semesters)

1 Semester

Module frequency

unregelmäßig

Module capacity

unlimited

Module level

AC (Aufbaucurriculum / Composition)

Modulart

je nach Studiengang Pflicht oder Wahlpflicht

Lern-/Lehrform / Type of program

S or V
