**Entry requirements**

**Skills to be acquired in this module**
The students are able to:
- understand and reproduce the models of the neoclassical and endogenous growth theory,
- understand, discuss and present a current research paper in the field of economic growth.

**Module contents**
The module consists of a lecture and a seminar. In the lecture, the fundamental growth models of the neoclassical and the endogenous growth theory are discussed in detail. In the seminar, the student presents a current research paper from the field of economic growth, which was published in an international refereed journal.
